## **NCP Stands with Palestine: Condemnation of Israeli Crimes against Humanity**

The National Citizens Party (NCP) strongly condemns the recent Israeli attack on Gaza, which resumed even after a ceasefire agreement was reached, violating international laws and norms, and claiming over 400 lives. The resumption of airstrikes and the continued military aggression against the Palestinian people during the holy month of Ramadan represents a blatant breach of ceasefire agreements and the continuation of Israeli crimes against humanity. This attack, which has resulted in the loss of innocent lives, including women and children, further exacerbates the suffering of the people of Gaza and undermines all efforts toward a peaceful resolution. Through the ongoing targeting of civilians, the destruction of infrastructure, and the blockade preventing essential aid, Israeli occupying forces are not only committing crimes against humanity, as described earlier by the Office of the High Commissioner for Human Rights (OHCHR), but also attempting to make all of Gaza uninhabitable.

While fighting against aggression and fascist rule, the youth and people of Bangladesh have stood in solidarity with the Palestinian people, drawing inspiration from their resistance movement. As a political party committed to human dignity and justice, the National Citizens Party (NCP) stands firmly in solidarity with the people of Palestine and condemns Israel's crimes against humanity in the strongest terms.

We call on all peace-loving nations, the United Nations, and international organizations to unite in solidarity with Palestine. It is time for the world to act decisively to hold Israel accountable for its crimes and violations of international law, including investigating and prosecuting those responsible in the International Criminal Court (ICC), and to end the illegal occupation, Israeli apartheid, and war crimes that have plagued the region for far too long.
